joergallego7@gmail.com | Open to Metro Manila roles

PROFESSIONAL PROFILE

Developer and IT specialist with 8+ years of professional experience in business web applications, system maintenance, and technical support. Independently built and commercialized a PHP/MySQL POS and retail management solution used by **7 active retail stores**. Experienced in end-to-end development, database design, deployment, customer support, and continuous software improvement.

SELECTED ACHIEVEMENT

7 ACTIVE RETAIL STORES — Independently developed, sold, and deployed a POS system currently used by grocery, hardware, and other retail businesses.

PROFESSIONAL EXPERIENCE

INDEPENDENT SOFTWARE DEVELOPER & POS SOLUTIONS PROVIDER | Naga City, Camarines Sur

- Designed and developed a PHP/MySQL-based POS and retail management application from scratch as the sole developer.
- Commercially sold and deployed the system to 7 stores that continue to use it in day-to-day operations.
- Implemented sales transactions, barcode scanning, inventory tracking, ordering, receipt printing, refunds, and business reports.
- Managed requirements, database design, frontend/backend development, testing, installation, and production support.
- Provided free software bug fixes and usability updates; billed separately for hardware-related services and replacement-PC reinstallation.

BIGGS INC. — IT Specialist / Web Development | 2018–Present

- Develop, maintain, and improve company website features and internal web applications.
- Support POS operations and troubleshoot application, website, and basic network issues.
- Translate business needs into system improvements that support reliable daily operations.
